PROFESSIONAL SUMMARY

Results-driven Full Stack Developer, AI Automation Specialist, and UI/UX Designer with 2+ years of experience building scalable web applications using React.js, Next.js, TypeScript, Django, and FastAPI. Skilled in deploying intelligent automation workflows via n8n and Make.com, and driving digital growth through SEO, AEO, and GEO strategies including blog content, social media, Google Ads, and Google Analytics, all managed through a customized CRM. Proficient in UI/UX design with Figma and Adobe XD, and integrating AI-driven workflows and LLM-based solutions into production applications. Holds a BSc in Information Engineering Technology (GPA: 3.42/4.0).

CORE TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript, Vite, Tailwind CSS, Shadcn/UI, Material UI, Bootstrap, HTML5, CSS3

Backend: Django, FastAPI, NestJS, Node.js, Python, C++, RESTful APIs, PostgreSQL, Database Migration

AI & Automation: n8n Workflow Automation, Make.com, Prompt Engineering, LLM Integration, AI Data Annotation, Generative AI, AI-Assisted Development, Marketing Automation, CRM Workflow Automation

UI/UX & Design: Figma, Adobe XD, Wireframing, Prototyping, User Interface Design, User Experience Optimization, Responsive Design

Digital Marketing & SEO: SEO, AEO, GEO, Google Ads Management, Google Analytics, Social Media Content, Blog Content Strategy, Automated Content Workflows, CRM Management

Tools & DevOps: Git, GitHub, Postman, Vercel, Netlify, pgAdmin

WORK EXPERIENCE

Full Stack Developer & AI Automation Specialist — CodeSquad.LLC, Lahore, Pakistan

January 2025 – Present

- Develop and maintain scalable full-stack web applications using React.js, Next.js, TypeScript, and Tailwind CSS on the frontend and Django and FastAPI on the backend, covering the complete development cycle from database design in PostgreSQL to deployment.
- Build and deploy intelligent automation workflows using n8n and Make.com to connect APIs and automate repetitive business processes, reducing manual effort and improving team productivity and operational efficiency.
- Design intuitive, user-centric interfaces by creating wireframes, user flows, and interactive prototypes in Figma and Adobe XD, then translate them directly into pixel-perfect, responsive production code.
- Collaborate with cross-functional teams across the full software development lifecycle, contributing to requirements gathering, UI/UX reviews, code reviews, API integration, and release cycles.
- Document automation strategies, design systems, and development workflows to establish consistent standards and enable team-wide adoption of best practices.
- Drive end-to-end digital marketing operations through automation, executing SEO, AEO, and GEO strategies alongside blog content production, social media content management, and Google Ads campaign management, with performance tracked and reported via Google Analytics — all integrated into a unified automated pipeline.
- Architect and manage a customized CRM system that centralizes and automates marketing workflows, client communications, content scheduling, and reporting, enabling seamless coordination across all digital growth functions.

AI Video Annotation Trainee — Turing Enterprises, Inc., Remote

September 2025 – November 2025

- Analyzed and annotated robotic task videos to build high-quality machine learning training datasets.
- Identified robotic objectives, movement sequences, and success/failure outcomes to improve model accuracy.
- Delivered precise, timestamped annotations while maintaining high accuracy through structured quality assurance reviews.
- Contributed to AI model training processes within a distributed remote team environment.

- AI Automation Instructor — Concordia College, Lahore, Pakistan

July 2025 – September 2025

 - Designed and delivered a comprehensive 2-month AI Automation course covering n8n, Make.com, and real-world workflow automation techniques.
 - Taught students how to build multi-step automated workflows connecting APIs, databases, and third-party services using n8n, with no coding required.
 - Guided students in setting up freelancing profiles and monetizing automation skills for digital entrepreneurship.

- Frontend Development Intern & UI/UX Designer — CodeSquad.LLC, Lahore, Pakistan

June 2024 – December 2024

 - Converted Figma and Adobe XD design mockups into fully responsive, cross-browser-compatible web interfaces using React.js and Tailwind CSS.
 - Contributed to UI/UX design discussions, helping shape user flows, component designs, and interface standards across multiple projects.
 - Built dynamic, high-performance frontend applications using React.js with Vite, focusing on fast load times and smooth user experiences.
 - Developed multiple projects across the full software development lifecycle using Python, GitHub, and a range of frontend and backend technologies.
 - Implemented modern UI designs, ensuring visual consistency and quality user experience across all deliverables.

EDUCATION

BSc in Information Engineering Technology

2021 – 2025

Superior University, Lahore, Pakistan | GPA: 3.42 / 4.0

Intermediate in ICS (Computer Science)

2019 – 2021

Riphah International College, Lahore, Pakistan | Score: 765 / 1100

Matriculation in Science

2017 – 2019

Al-Samnan High School, Lahore, Pakistan | Score: 836 / 1100
