PROFESSIONAL SUMMARY

Results-driven **Junior Full Stack Developer and UI/UX Designer** with 2+ years of professional experience building scalable, responsive web applications using **React.js, Next.js, and TypeScript**, alongside backend development with Django and FastAPI. Passionate **AI Automation Enthusiast** with hands-on expertise in designing and deploying intelligent automation workflows using **n8n and Make.com** to streamline business processes and boost productivity. Skilled in crafting **intuitive UI/UX experiences** through Figma, Adobe XD, wireframing, and prototyping — translating designs directly into pixel-perfect, responsive interfaces. Experienced in integrating AI-driven workflows and LLM-based solutions into production applications. Holds a BSc in Information Engineering Technology with a 3.42 GPA.

CORE TECHNICAL SKILLS

Frontend:	React.js, Next.js, TypeScript, JavaScript, Vite, Tailwind CSS, Shadcn/UI, Material UI, Bootstrap, HTML5, CSS3
Backend:	Django, FastAPI, NestJS, Node.js, Python, RESTful APIs, PostgreSQL, Database Migration, C++
AI & Automation:	n8n Workflow Automation, Make.com, Prompt Engineering, LLM Integration, AI Data Annotation, Generative AI, AI-Assisted Development
UI/UX & Design:	Figma, Adobe XD, Wireframing, Prototyping, User Interface Design, User Experience Optimization, Responsive Design
Tools & DevOps:	Git, GitHub, Postman, Vercel, Netlify, pgAdmin, Java

WORK EXPERIENCE

Junior Full Stack Developer & AI Automation Enthusiast | **CodeSquad.AI** | Lahore, Pakistan |

January 2025 – Present

- Develop and maintain scalable full-stack web applications using React.js, Next.js, TypeScript, and Tailwind CSS on the frontend and Django and FastAPI on the backend — covering the complete development cycle from database design in PostgreSQL to deployment on Vercel and Netlify.
- Design intuitive, user-centric interfaces by creating wireframes, user flows, and interactive prototypes in Figma and Adobe XD, then translating them directly into pixel-perfect, responsive production code bridging the gap between design and development seamlessly.
- Build and deploy intelligent automation workflows using n8n and Make.com to connect APIs, automate repetitive business processes, and reduce manual effort significantly improving team productivity and operational efficiency.
- Collaborate with cross-functional teams across the full SDLC contributing to requirements gathering, UI/UX reviews, code reviews, API integration, and release cycles ensuring both strong technical quality and excellent user experience across every product.
- Document automation strategies, design systems, and development workflows to enable consistent standards and team-wide adoption of best practices.

AI Video Annotation Trainee | **Turing Enterprises, Inc.** | Remote | September 2025 – November 2025

- Analyzed and annotated robotic task videos to build high-quality machine learning training datasets.
- Identified robotic objectives, movement sequences, and success/failure outcomes to improve model accuracy.
- Delivered precise timestamped annotations maintaining high accuracy through structured quality assurance reviews.
- Contributed to AI model training processes within a distributed remote team environment.

AI Automation Instructor | [Concordia College](#) | Lahore, Pakistan | *July 2025 – September 2025*

- Designed and delivered a comprehensive 2-month AI Automation course covering n8n, Make.com, and real-world workflow automation techniques.
- Taught students how to build multi-step automated workflows connecting APIs, databases, and third-party services using n8n — zero code required.
- Guided students in setting up freelancing profiles and monetizing automation skills for digital entrepreneurship.

Frontend Development Intern & UI/UX Designer | [CodeSquad.AI](#) | Lahore, Pakistan | *June 2024 – December 2024*

- Converted Figma and Adobe XD design mockups into fully responsive, cross-browser compatible web interfaces using React.js and Tailwind CSS.
- Contributed to UI/UX design discussions, helping shape user flows, component designs, and interface standards across multiple projects.
- Built dynamic, high-performance frontend applications using React.js with Vite, focusing on fast load times and smooth user experiences.
- Developed multiple projects across the full SDLC using Python, GitHub, and a range of frontend and backend technologies.
- Implemented modern UI designs ensuring visual consistency and quality user experience across all deliverables.

EDUCATION

BSc in Information Engineering Technology | *2021 – 2025*

Superior University, Lahore, Pakistan Score: 3.42 / 4.0 GPA

Intermediate in ICS (Computer Science) | *2019 – 2021*

Riphah International College, Lahore, Pakistan Score: 765 / 1100

Matriculation in Science | *2017 – 2019*

Al-Samnan High School, Lahore, Pakistan Score: 836 / 1100
